

## Press Release

### **Jim Greer joins LifeGuard Technologies as US Compressed Gas Market Sales Manager**

LifeGuard Technologies is pleased to announce Jim Greer has joined LifeGuard Technologies as the US Compressed Gas Market Sales manager. Jim brings extensive sales and Market knowledge to LifeGuard technologies having worked in the US Compressed Gas industry for more than 35 years. Prior to joining LifeGuard Technologies, Jim worked with AGA Gas, Aweco Scientific, Superior Products, Air Liquide and others. Due to LifeGuard's considerable growth, Jim will head the US market which is in line with LGT's global geo-expansion strategy, an initiative aimed at strengthening the company's presence in growth markets around the world by providing its patented and patent pending technology, services and solutions to an expanding base of customers and partners.

"I am very enthusiastic about the company, our patented technology, our team, the products and the markets we are working within. LifeGuard technologies is a fast growing business and I am excited to lend my experience and industry knowledge to assist in this important safety technologies growth". said Jim Greer.

"Having worked as a customer of Jim's we are keenly aware of his experience and market knowledge. Jim has developed a unique blend of technical, managerial and sales skills that will prove of great value to LifeGuard Technologies and our customers in the US compressed gas market." said Andy Abrams, Executive Vice President.

#### **About LifeGuard Technologies**

LifeGuard Technologies is formed to take the next steps by providing, on a geographical basis, reliable, readily deployable and cost effective improvements in industrial safety. As the name declares we are a Global Company that is based upon the extensive experience of its founders and joint venture partners and believes that significant and measurable enhancements to industrial safety are achieved with deployment of "passive devices". The essence of our mission is to increase the safety of all operations and facilities through the deployment of systems such as the "LifeGuard Safety Hose" and others.
